The Silver City, N. M., Enterprise, gap in the newspaper fra ernity of Vol. I., No. 2, reached our table this | the Pacific coast. morning. It is full of news of its neighborhood and is Republican in sentiment. Take our hand.

We are in receipt of Signal Ser. vice Tables of Rainfall and Temperature Compared with Crop Product, by H. H. C. Dunwordy, of the Signal Service. His report is a valuable study to crop raisers.

We are informed by private letter to-day that a gentlemau will shortly visit this place, representing the famous wine cellar of Chas. Krug, Esq., of St. Helena, Napa county, Cal We are intimately acquainted with both the proprietor and his agent and would state to the e wishing to use wines that you can get that which is perfectly pure from these gentlemen.

first between the horses of Briz and I imes. Tathelmer, the ewners riding, in which Talheimer won the race and money, \$10. This was followed by a race between the horses of Collins and Rogers the owners also riding, in which Rogers won the money, Some \$40.

It is not generally known, although. it is a fact, thatt he Son ira railroad which has just been completed was gret concocted by Alexander Willard, American Consul at Guaymas, about ten years ago, who in conjunction with Pesquierro expend d s large fortune before securing the promotion of their views. The people of Smora apprecia e this fact and give them due credit. Americans in the future will find that our government did a good work in appotating and continuing Consul Willard at that point. Not only in this matter, but in all other affairs in which our government has been interested, he has proved himself ever equal to the emergency. No man in Sonora is held in higher esteem by both citizens and foreigners than the American Consul.

(From Tuesday's DARLY.) The voters of this county should be well supplied with lickets, upwards of 18,000 being printed at the HERALD office alone.

A special as we go to press to a gentleman in town announces Porter and Gray solid at Wickenburg

and a large majority at Vulture. There is always hope of a good government for people who are in

telligent enough to "scratch" a ticket and there is hope of this county. Never before in the history of the county has such scratching been done as to day.

The Murder at Gillett.

On the arrival of the stage Saturday from Prescott, by way of the Black Canyon road, intelligence was spread that two hooting scrones had taken place between drivers of the coaches and station men on the route; the first at Bumblebec, where the station man, Peter Conelly turned loose at the driver, James gophers. 15c. Drug\_lats. Magnire, who recurned the fire breaking Conelly's leg. A horse was also badly wounded in the me lec. When the coach reached Gillett, another quarrel ensued between James McClintock, who had assumed the reins, and Jas- Coulson, the agent of the stage company. Mc. Cintock got down from his box with the intention as he declared of whipping Coulsen, who warned him off and on the approach of McClintock fired upon him at close quarters. Strange to say, though two balls struck him near the pit of the stomache, peither one penetrated the shin, probably being warded off by a heavy overcoat and thick clothing, together with the closeness of the Impotence, Sexual Debility. \$1.

pictol when the shot was fired, as it was against his person. The shot, however, knocked him down, and a third shot broke his arm. Every one, however, and the man him-elf thought he was shot through and through. The shooting of Co melly proves to be the much more serious of the two. So far as we have been able to learn, uo arrests have been made, as both of the effective shots came from men who were defending themselves.
